

FINAL INTERNATIONAL CONFERENCE

From Transferring EU legislation on Climate Change to Low-Carbon Policy Implementation: A cross-sectoral perspective

December 18, 2014

Venue: Radisson Blue Hotel, Via Filippo Turati, 171, 00185 Rome, Italy

Final Programme

08:30-09:00 **Registration**

09:00-09:15 **Welcome**

- Francesco LA CAMERA, Director General for Sustainable Development, Climate and Energy, Italian Ministry for the Environment, Land and Sea
- Roberta CALCINA, South East Europe Programme

09:15-09:30 **The LOCSEE project: Overview of main achievements**

- Daniele VETTORATO, European Academy of Bolzano, Italy

Session 1: Development of low-carbon policies — Experience from the LOCSEE project ministries in the SEE region

Chair: Helmut Schreiber, Joanneum Research, Austria

09:30-09:55 **Establishing a system for monitoring the implementation and effectiveness of measures with an impact on GHG emissions**

- Barbara SIMONIC, Ministry of the Environment and Spatial Planning, Slovenia

09:55-10:20 **Improving reporting on emissions related to land use, land-use change and forestry**

- Ana JURAS, Ministry of Environmental and Nature Protection, Croatia

10:20-10:45 **Mainstreaming climate change mitigation in national sectoral policies**

- Teodora OBRADOVIKJ GRNCHAROVSKA, Ministry of Environment and Physical Planning, FYR Macedonia

10:45-11:15 Coffee break (during which a press conference is due to take place)

11:15-11:40 Low-carbon policy in the waste sector: Serbian policy paper

- Dusan TODOROVIC, University of Belgrade, Serbia

11:40-12:05 The development of NAMAs in the energy efficiency sector

- Laureta DIBRA, Ministry of Environment, Forests and Water Administration, Albania

12:05-12:30 The Eco-innovation Action Plan and its implementation in Italy

- Benedetta DELL'ANNO, Italian Ministry for the Environment, Land and Sea

12:30-12:55 Regional approaches to climate change adaptation and mitigation in the Balkans

- Piercarlo SANDEI, UNEP, Austria

13:00-14:30 LUNCH

Session 2: Transferring and implementing EU climate change legislation (or related to/with an impact on climate change): Methodologies, financing and practical experience

Chair: Wolfram Sparber, European Academy of Bolzano, Italy

14:30-14:50 GHG emissions, measuring, trading and storing

- Pierre LACONTE, Foundation for the Urban Environment, Belgium

14:50-15:10 Modelling of low-carbon policies in the SEE region: Results, challenges and lessons learned

- Elena GEORGOPOULOU, National Observatory of Athens, Greece

15:10-15:30 Implementation of transport legislation

- Nadia BERT, Florence School of Regulation, Transport Area, European University Institute

15:30-15:50 Financing policy implementation

- Andrea BUA, European Investment Bank

15:50-16:10 Coffee break

- 16:10-16:30** **NAMAs in the Western Balkans**
- Andreas TUERK, Joanneum Research, Austria
- 16:30-16:50** **Voluntary tools in the implementation of European low-carbon strategy in Italy**
- Antonio LUMICISI, European Academy of Bolzano, Italy
- 16:50-17:10** **The effects of the EC State Aid 2014-2020 Guidelines and the electricity market: Target model on meeting the 2030 EU targets**
- Dimitri LALAS, National Observatory of Athens, Greece
- 17:10-17:40** **Roundtable: The sustainability of project results and outlook**
Moderated by the National Observatory of Athens, Joanneum Research, and the European Academy of Bolzano
- 17:40-17:50** **Conference conclusions and closing**
European Academy of Bolzano
